1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 38-42 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 2-4, 16-17 respectively. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

3. Claims 1-5, 9, 12, 16-18, 36, 38 are allowed.

4. It is noted that this application contains claims drawn to non-elected inventions. The claims do not appear proper for rejoinder because they are not commensurate in scope with the allowed claims. If Applicant wishes to rejoin the non-elected claims they should be amended to be commensurate in scope with the allowed product claims or else they should be cancelled.

5. The Declaration filed on 11/18/11 under 37 CFR 1.131 is sufficient to overcome the Corzani reference reference.
